

## 10/3 Friday Frontend meeting

Some guys we can interview:

- [https://www.reddit.com/r/sutd/comments/wur3a6/im\\_an\\_air\\_traffic\\_controller\\_ama/](https://www.reddit.com/r/sutd/comments/wur3a6/im_an_air_traffic_controller_ama/)
- [https://www.reddit.com/r/AMA/comments/ugedz1/im\\_a\\_21\\_year\\_old\\_air\\_traffic\\_controller\\_ama/](https://www.reddit.com/r/AMA/comments/ugedz1/im_a_21_year_old_air_traffic_controller_ama/)
- [https://www.reddit.com/r/AirForceRecruits/comments/uirncy/i\\_am\\_atc\\_ama/](https://www.reddit.com/r/AirForceRecruits/comments/uirncy/i_am_atc_ama/)
- @sherwinlam on tele → ex intern at SQ

The interphase:

- What we need: drop down bars, scrolling bars, time range, etc. → use dash & things we learnt on datacamp
- What we have to figure out: html/css stuff.... docker things

The interview questions:

- Conducted through messages/ emails
- Craft them around the topic of what they think causes delays?? What information do they need/ maybe can tell them a little bit more of what we want to create & see if it is applicable for them & if it can help them; if cannot then how to improve kind of thing
